Tidbits

Leslie Martin had knee replacement a few weeks ago. She is home doing her exercises now and of course, it hurts. Please keep her in your prayers.

Jon and Barbara Liversedge have sold their trailer and are eagerly awaiting their new one.

Like children waiting for Santa on Christmas Eve, they are excited!

Robert Stanton has been spoiling **Lea** as she recovers from surgery for endometrial cancer.

They are hoping that Lea will be strong enough to start radiation in early March. If the schedule holds, they hope to attend our club rally in April and make their first trip to the Region 3 Rally. Rob says he is “not without skills” and Lea says she is “a tough ol’ bird!” Recovery prayers are appreciated!

To accompany the photo at left, Lea wrote, “Recovery is good, and so is bundling up with home made broccoli soup!”

In another email, Lea wrote that **Karen and Gary Goforth** went to the Stantons' house to watch the Falcon Heavy lift off. "The lack of Northern trees on our lot make for a little better view. After burn off we ran inside to watch the re-entry of the stages on the landing pads. Wow! Wow!

What excites me most is that there are so many young people interested in the space program. It reminds me when my generation watched us land on the moon.

"Gary noted that I have some sparkle back in my eyes! Probably the space program. I grew up on Navy bases where the early astronauts were recruited. Gus Grissom, who died during a pre launch test for Apollo 1, taught me to water ski. None of us kids thought too much of living with such extraordinary people. Looking back, I am grateful that my father declined to join the program. Instead he entered the 1000 aviator program which literally tracked their behavior for the rest of their lives. We were more anxious that our dads came home nightly from test flights. It was not all anxiety. Pilots had to have X number of fly time hours, so when their numbers were low, Daddy and crew would zip to Maine and come home with a crate of live lobsters. You should have heard my mom when she saw what filled the bathtub!"

Recycle Opportunity: If you haven't already thrown them out, please save Christmas cards for **Sallie LittleJohn**. Also she'd like to have any greeting cards, not just Christmas ones. She makes tiny, nesting, novelty gift boxes from them which she demonstrated at the recent picnic. She then generously handed them out to those who wanted them.

Daria and Alden Tansey and **Alicia and Mike Rafter** attended the Farmlife in Florida 2.0 Rally in early February, hosted by the Southeastern Camping Unit. They enjoyed a challenging miniature golf course, seeing "old" friends and making new ones, good food and two nights of entertainment by Antsy McLean. The Rafter's canoed four miles of the Hillsborough River, seeing only four humans and many, many alligators, turtles and wading birds.

While driving in the south end of West Palm Beach last week, Alicia Rafter spotted what appears to be a customized Airstream. With colored bottles inside surrounding the rear "window," it appears that it might be a "party trailer."

Twenty-five people attended the BYOB & F picnic on January 21 at the Rafter's home. The weather was cooperative and pleasant! Everyone seemed to have a good time! The (non-existent) award for farthest distance traveled to attend went to **Carol Wallen** from The Villages and her daughter visiting her from Ohio. In attendance were **Eric and Susan Arens, Ed and Charlotte Curran, Ron and Dorothy Engel, Gary and Karen Goforth, Charlie and Carol Helm, Blair and Sallie LittleJohn, Jack and Mary Ann McLaughlin, Don and Gail North, Mike and Alicia Rafter, Rob Stanton, Jack and Joan Starr, Alan Strickland** and daughter **Cindi, Carol Wallen** and daughter **Vicki**.

Top to Bottom, Left to Right: Carol Wallen & Vicki; Ed, Charlie, Allen, Eric & Blair; Mike & Jack, Sallie, Joan & Dot; Rob, Gary, Karen & Cindi.
